

Pet Snowy Owl

by Sunny Tyto

Art by Aimee Hagerty Johnson

WE LOVE ALL sorts of owls, especially the kind that blend into the winter snow. Paint your very own pet snowy owl.

What You'll Need:

2 to 3 smooth flat rocks

acrylic paint*

paint brushes

googly eyes

glue

What to Do:

1. Paint the entire rock white—the owl's body.
2. Paint a gray heart on the top half of the rock—the owl's face.
3. Add a yellow or orange triangle to the point of the heart to make a beak.
4. Paint a black V shape above the eyes to make eyebrows.
5. Add two gray half-circles on either side of the owl's body to make wings.
6. With a small paint brush, add feathers to the owl's chest.
7. Glue googly eyes onto your owl's face so it can see you—whooo are you?

* Wait for the paint to dry between each step.
