

Creepy Peepers

Art by Lauren Minco

HIDE THESE GLOWING eyes in a bush or tree on Halloween night to thrill trick-or-treaters!

What You'll Need:

empty toilet paper roll
pen or marker
small scissors
4-inch glow stick or flexible glow bracelet
duct tape

What to Do:

1. Draw two creepy eyes on toilet paper roll, as close to the same size as possible. Leave small notches at the bottom for pupils.
2. Cut out the eye shapes, including the pupils. You may need to pinch the paper roll to start your snipping.
3. Cover one end of the roll with duct tape.
4. When it gets dark, crack glow stick and place it in the roll through the open end. Cover this end with duct tape.
5. Place your creepy eyes outside in a tree or bush to thrill trick-or-treaters, or hide somewhere in your house to give your family a spooky surprise!
