

# OPHELIA'S LAST WORD

## VEGGIE RABBIT

MAKE A YUMMY, funny bunny hop out of the garden and into your kitchen.

### What You'll Need:

cucumber

celery stick

small Roma tomato

round tub of veggie dip or hummus

2 blueberries

bag of baby carrots

kitchen knife\* and cutting board

\* Knife is for adult use only.

large plate

### What to Do:

1. Wash your hands. Then wash all vegetables. Have a grownup peel the cucumber, if preferred. Ask that grownup to cut the cucumber and celery down the middle longways and then to cut the thin celery pieces in half.

2. Open the tub. Place it on the plate near the edge. Cover the rest of the plate with all the carrots, except the two shortest carrots.

3. Lay the cucumber halves, with their insides facing up, on top of the carrots. The cucumber ends should touch the tub rim to look like bunny ears.

4. Set the tomato in the middle of the tub for a nose. Put the blueberries above the tomato for eyes. Line up the two shortest carrots below the tomato for teeth.

5. On each side of the tomato, stick the celery ends down into the veggie dip or hummus for whiskers.

6. Admire your silly snack. Then dig in and dip!
